EVOLUTION IN THE DETAILS

Tiger Italia was founded as the Eurozone extension of Tiger Leather, a leading distributor of hospitality and contract leathers around the world. By operating a locally-owned company, we can provide quick and attentive service on sizable and boutique projects. In fact, we can deliver any of our in-stock styles and colors within just one week, over 500 articles in all.

Premium materials. Prudent sustainability practices. Hands-on support. **All these details and more.**

The history of Italian leathercrafting is ancient, with closely-guarded tanning practices handed down from generation to generation. Our partners in Italy have been crafting leather for decades. It courses through their blood and turns the wheels of their imagination. It also provides us with unique insight into the colors of fashion icons like Gucci, Ferragamo, and Hermes.

Fashion leathers to stop traffic. Mind-blowing colors. Innovative technology. **This is what drives us.**

FASHION-DRIVEN LEATHER

SEND YOUR HEART RACING

Like a fine Italian sports car,
our devotion to fashion-driven leather
is where the rubber meets the road
and new innovations are **born**.
